

CMS Hospital CoPs on Standing Orders, Protocols, Order Sets & Preprinted Orders

Program Overview

This program will cover the interpretive guidelines and regulations required by the Center for Medicare and Medicaid Services (CMS) related to standing orders, protocols, order sets, and preprinted orders. Regarding standing orders, Tag 457 will be discussed, including the four separate sections in the hospital Conditions of Participation (CoP) manual which regulate this issue, including the requirements that have been moved from Tag 405 to Tag 457. Additionally, standing orders related to medication approval and radiology standards will be reviewed.

The development of protocols and standing orders is best described as a journey. The session will provide the history of each of the four sections and what each section requires hospitals to do. Ms. Calloway will clarify this confusing area and make the requirements understandable for hospitals. This is especially important as hospitals move toward a complete electronic medical record.

Program Objectives

At the completion of this program, the participants will be able to:

1. Discuss why hospitals must comply with the CMS CoP requirements.
2. Give examples of the CMS requirements for standing orders and protocols.
3. Explain how all protocols must be approved by the Medical Staff even if the protocols are department specific.
4. Describe why a physician must sign off the standing order along with the date and time.

About the Speaker

Sue Dill Calloway has been a nurse attorney and consultant for more than 30 years. Currently, she is president of Patient Safety and Healthcare Education and Consulting and was previously the chief learning officer for the Emergency Medicine Patient Safety Foundation. She has conducted many educational programs for nurses, physicians, and other health care providers. Sue has authored over 100 books and numerous articles. She is a frequent speaker and is well known across the country in the area of health care law, risk management, and patient safety. Sue has no real or perceived conflicts of interest that relate to this presentation.

Who Should Attend

Senior leadership, CNOs, CMOs, physicians, nursing supervisors and managers, nursing staff, infection preventionists, pharmacy staff, radiology staff, performance improvement and patient safety personnel, compliance and regulatory officers, Joint Commission liaison, educators, hospital legal counsel, and others who are involved in ensuring compliance.
