

The Leadership Challenge: Driving Results

Program Overview

Leadership research often holds the key to assisting us in getting the results we need. However, the struggle for many managers is having the time to evaluate the evidence and develop it into strategies that are realistic and practical. In this program, MHEI does that work for you. Based on the classic research of Kouzes and Posner, this program distills the practice of results-oriented leadership down to a handful of workable strategies applicable to any health care setting.

Program Objectives

1. Analyze leadership actions that will enable others to reach organizational and departmental goals
2. Recognize when and how to challenge the status quo as a means of process improvement
3. Identify role modeling behavior that encourages accountability and results
4. Apply leadership strategies to a current organizational challenge

About the Speaker

Katrina Coleman, RN, MSN, develops customized training and consulting services based on the organization's identified needs. She has over 20 years experience in healthcare serving in the

beginning of her career as a registered nurse in pediatrics, med/surg, and home health. For the past 15 years she has focused on making a difference in health care by developing the leadership skills of senior leaders, directors, managers, and supervisors and staff nurses. Healthcare systems she has worked with include Calvert Memorial Hospital, Carroll Hospital Center, Dimensions Healthcare System, Fort Washington Medical Center, and Meritus Medical Center.
