

# ICD-10 Updates for 2017

## Program Overview

This webinar will provide an overview of the 2017 ICD-10 coding updates that went into effect on October 1, 2016. The partial ICD-10 code freeze ends with mandated code updates of thousands of ICD-10-CM and ICD-10-PCS. The code updates occur at the same time that Medicare lifts the moratorium on issuing denials for incorrect code assignments for codes if the code selected was in the correct family of codes. The value-based payment system will be based on 2017 claims data. Coding accuracy with appropriate documentation to support it becomes paramount to success revenue cycle management. The webinar will discuss significant ICD-10 changes and how they relate to documentation guidelines.

## Program Objectives

At the completion of this program, the participants will be able to:

1. Discuss the 2017 ICD-10 coding updates and guidelines.
2. Identify documentation gaps related to the 2017 coding updates.
3. Utilize concepts learned to develop education for providers.

## About the Speaker

Ellis "Mac" Knight, MD, is senior vice president and chief medical officer of Coker Group. With over 30 years in the healthcare arena, he has developed significant experience and knowledge in this industry. Dr. Knight oversees Coker Group's hospital strategy and operations services and serves as Coker Group's chief medical officer. He has a special interest and expertise in population health management, clinical care process design, cost accounting and hospital – physician integration. Prior to joining Coker, Dr. Knight served as the chief physician and clinical integration officer for Palmetto Health in Columbia, South Carolina, and was Palmetto Health Richland's vice president for medical affairs.

## Who Should Attend

Hospital employees involved with any aspect of coding from clinical to financial.
