

## **MHEI Associate Member Application**

Are you looking  
for continuing education opportunities for your organization  
and more access to Maryland's healthcare leaders?

Become an MHEI Associate Member!

Many non-hospital health care providers have asked how they can become members of the Maryland Healthcare Education Institute (MHEI) so they can enjoy the great educational programs and access to Customized Solutions offered at low member prices. In response to those inquiries MHEI has created an Associate Membership program for those non-hospital care organizations who wish to take advantage of the many opportunities for continuing education and skill building.

MHEI associate members pay a low annual membership fee that provides them access to the educational programming, at the same per program price, MHEI offers to its hospital members. This includes all “members only” programming as well as special “early bird” discounts. To become an MHEI associate member you must be a non-hospital health care provider or related agency. Hospitals (those listed in the American Hospital Association annual guide) interested in becoming MHEI members are eligible to become MHEI hospital members, not associate members.

Associate member applicants will complete a ½ page application and forward the application to MHEI for approval. MHEI will contact you with details regarding your membership and member benefits. The cost of associate membership is \$500.00 annually.

### **Member benefits include:**

- Access to all MHEI programming including “members only” programs such as:
  - o Management Boot Camp
  - o C.O.R.E. Leadership Program
- Access to educational program discounts as well as a savings of \$125 for all webinars
- Access to online member directory and member’s only section of MHEI website that includes up-to-date information sharing and discussion forums between members
- Ability to interact and network with health care leaders throughout the State of Maryland
- Visibility of organization on MHEI’s website
- Sponsorship and advertising opportunities at programs and annual conferences.

### **Programs that our current members find most valuable include:**

1. The Joint Commission, Annual Update – Learn the new standards for the coming year.
2. The Joint Commission, Environment of Care – How to apply these critical standards to your facility.
3. Management Boot Camp – Basic management skills for new managers.

.....and many, many MORE!!!!
