

DiSC for Team Building

Program Overview

The DiSC® Model of behavioral styles provides insight into the way each individual works. Having an awareness of different behavioral styles can improve communication and collaboration. In this interactive session, participants will complete the DiSC® behavioral styles inventory leading to enriched discussion of each individual's own style as well as the style of others. Armed with this knowledge, participants will gain an understanding of how others behave and, more importantly, how to use that knowledge to be more effective in their interactions.

Program Objectives

1. Identify the 4 DiSC® behavioral styles
2. Determine one's own DiSC® style preferences
3. Recognize DiSC® style of others
4. Identify the strengths and opportunities of the 4 DiSC® styles

About the Speaker

Lyndley O'Dell, MS is a healthcare human resources professional with experience in various aspects of HR including talent acquisition, onboarding, employee engagement, employee relations, performance management and organizational development. Lyndley is passionate about building collaborative relationships and offering customized strategies to help leaders and staff achieve results.

This educational activity is jointly provided by AXIS Medical Education and MHEI.
