

BECOME CORE STRONG STRENGTHEN Your Key Leadership Skills for 2019 with C.O.R.E.!

Today's health care leader needs to be able to focus attention on achieving results while working in a culture that may be stuck in old habits. CORE leadership is about both of those things; Results, and creating a culture that works!...and how that can be accomplished using the most up-to-date knowledge and strategies around the key CORE elements of employee engagement, accountability, change leadership and collaboration.

Through the discussion, practice and implementation of the key CORE elements you will focus your energies on proven approaches and techniques that others have shown lead to success.

These four in-seat sessions require a high degree of engagement and interaction from participants with the completion of action learning strategies between sessions and one-on-one coaching following the completion of CORE.

Target Audience: Nursing Management and Other Healthcare Leaders

About Katrina Coleman, BSN, RN

Katrina Coleman has been in the health care industry for 20 years during which she has consulted and coached with hundreds of managers
