We need to support and rejuvenate our teams working tirelessly to deliver excellent care during COVID-19 and beyond

“ *Compassion Tribe has been a valuable resource these past few months to both me and my team. I have joined almost every week & brought tips & wisdom from the sessions back to my team. Our whole team has gone remote supporting providers during COVID & it has been a huge challenge. I have felt the support of Compassion Tribe, and the topics presented weekly have sparked productive conversations around emotional intelligence, communication, encouragement, teamwork & resiliency in my team!* ”

-Megan T., Compassion Tribe Participant
