Program Overview

This one-hour webinar builds on the previous “Introduction” through its exploration of systemic racism and how policies and practices in our own healthcare organization may include “hidden” biases that skew the effects and results of our own delivery of healthcare. Workforce issues pertinent to the discussion will be explored, and strategies for addressing those biased policies and practices will be identified.

Program Objectives

By the completion of this program the participant will be able to:

1. Identify racist/biased policies and practices entrenched in our organizations
2. Identify how the “make-up” of our workforce unconsciously impacts the care we deliver to patients
3. Identify at least two strategies for addressing biased policies and practices

About the Speaker

Nicole Rochester, MD is the principal at “*Your GPS Doc, LLC*,” an innovative health advocacy and consulting company whose mission is to educate and empower patients and their family caregivers in order to facilitate the provision of appropriate and effective medical care. Prior to her current work Dr. Rochester practiced as a community-based pediatrician, a pediatric hospitalist, and served as the Medical Director for the Pediatric Hospitalist Program at Holy Cross Hospital.
