Program Overview

This program will review the new Elements of Performance (EP) in the Environment of Care (EC) and Life Safety (LS) Hospital Accreditation Manual, published by the Joint Commission. Also, discussion will be provided on the new business occupancy standards and water management requirements. The program will conclude with survey strategies and a review of the top 10 EC/LS findings.

Program Objectives

1. Outline the intent behind each new Element of Performance (EP) in the Environment of Care and Life Safety chapters.
2. Describe the Business Occupancy Standards.
3. Review the Water Management Requirements.
4. Describe the post-survey process for requesting additional time for correcting Life Safety Chapter observations.

About the Speaker

GEORGE MILLS, CEO of ATG (a JLL-owned company) and Director of Technical Operations, JLL Healthcare Solutions

George Mills is the CEO of ATG and Director of Technical Operations for JLL Healthcare Solutions. As CEO of ATG he provides innovative strategies related to compliance programs and their architecture and space division. As Director of Technical Operations for JLL Healthcare he has standardized their delivery model and support network of the Performance Optimization Group. This team supports account teams with innovation, program development, and ensuring the goals of higher reliability are achieved. George was formerly the Director for the Department of Engineering at The Joint Commission. In this role, George provided standards interpretation and education to The Joint Commission's Surveyors and accredited organizations and is a nationally recognized speaker and author. During his tenure at The Joint Commission, he led the team creating the Elements of Performance for the Environment of Care and Life Safety Chapters, reconciling with the CMS adoption of the 2012 Life Safety Code.
