## Program Overview

This workshop is designed to equip participants with the skills and techniques needed to conduct effective behavioral interviews. The core principle of Behavioral Interviewing is that past behavior is the best indicator of future performance, allowing interviewers to gain insights into a candidate's real-world skills and abilities. Behavioral Interviewing can effectively forecast how a candidate will perform in a role based on their past actions.

## Program Objectives

1. Recognize Behavioral Interviewing principles
2. Identify effective Behavioral Interviewing questions
3. Demonstrate effective interview evaluation strategies
