Program Overview

Understanding the relationship of the CMS requirements and the Physical Environment Chapter of the Joint Commission is essential for successful survey activities, and more importantly, to create a safe Physical Environment for patient care delivery. The session will include discussion on the CMS requirements and their impact on the Joint Commission Physical Environment, with a focus on the previous Environment of Care and the current Physical Environment Chapter.

Questions submitted prior to the session would be appreciated and will be addressed.

About the Speaker

**George Mills, FASHE, FAAMI, FRSPH, CHFM, CHSP
President, The George Mills Company**

George Mills was formerly the Director for the Department of Engineering at The Joint Commission. In this role, George provided standards interpretation and education to The Joint Commission's Surveyors and accredited organizations and is a nationally recognized speaker and author.

George is the President of his company, the George Mills Company, which provides education and consulting services.
